

Foundation Course in Mathematics & Computing

[2nd May - 9th May, 2018; 9:30 am - 1:00 pm]

Cochin University invites young mathematicians and computer scientists to a one week program on “**Foundation course in Mathematics & Computing**” scheduled during 02-09 May, 2018. This is the third course in the series.

This course is designed for high school students [**Students entering to 8th, 9th, 10th and 11th standards in the coming academic year**] with a natural talent for mathematics, a high degree of self-discipline, and a strong motivation to learn. The main aim of the course is to develop the skills and tenacity to solve large, technically complex problems by learning how to break them down into smaller, sensible pieces.

Faculty members from Mathematics, Computer Science and Computer Applications Departments of the University will lead the classes.

Admission to the course is free and selection is based on the **first-come-first-serve** basis. Hurry up! Limited seats available.

Register your names by sending an email to: **training@cusat.ac.in** with a subject header “ **foundation course** ”

An intimation will be sent to the selected candidates on or before 30th April 2018

Venue:

Training lab of Centre for Information Resource Management, CUSAT
